

**TAM DUC CARDIOLOGY HOSPITAL
JOINT STOCK COMPANY**

No.: 658-26/CV-CTTD

“Re: Explanation of profit after tax for
the first six months of 2026”

Ho Chi Minh City, August 12, 2026

To: **HANOI STOCK EXCHANGE**

The shares of Tam Duc Cardiology Hospital Joint Stock Company have been officially traded on the UPCoM market since February 6, 2017 under the stock code TTD.

According to the Company's financial statements for the first six months of 2026, profit after tax decreased by 23.28% compared with the first six months of 2025.

Revenue decreased by 0.19%, while expenses increased by 4.47%, resulting in a sharp decline in profit. The increase in expenses was mainly attributable to the following factors: the ratio of drug and medical supply costs increased due to changes in the revenue mix. Revenue from the pharmacy, interventional cardiology and cardiac electrophysiology segments increased. Meanwhile, profit from the pharmacy segment remained low due to compliance with regulations on drug mark-ups, while the ratio of medical supply costs in the interventional cardiology and cardiac electrophysiology segments was high, thereby significantly reducing overall profit; Salary expenses increased by 7.46% compared with the first six months of 2025 due to periodic salary increases and on-call allowance. Depreciation expenses for fixed assets increased by 6.55% due to certain investments in replacement assets made from the third quarter of 2025 through the second quarter of 2026. In addition, certain other expenses increased compared with the same period in 2025 due to price increases by service provider.

Respectfully submitted.
