Ho Chi Minh City, July 18, 2025

To: THE HANOI STOCK EXCHANGE

The shares of Tam Duc Cardiology Hospital Joint Stock Company officially started trading on the Upcom market since February 6, 2017, with the stock code TTD.

According to the Company's Q2/2025 financial statements, the after-tax profit in Q2/2025 increased by 43.45% compared to Q2/2024.

Revenue rose by 16.4% compared to the same period in 2024, while the growth rate of expenses was lower, resulting in higher profit. Similar to Q1/2025, the reduction in expenses was mainly due to the following reasons: The cost of meals for patients and staff decreased due to the transition to a new meal supply organization starting from October 2024; Depreciation and amortization costs decreased because certain assets, tools, and long-term allocation costs were fully depreciated, with minimal new additions. In addition, the company increased its term deposits at banks, resulting in higher financial income compared to the same period last year, which also contributed to the higher profit..

Sincerely,

GENERAL DIRECTOR

Dr. DO VAN BUU DAN
